

# Conservation Programs for Livestock & Grazing Systems

**Call Us  
Now!**

**Up to \$100,000 in funding per  
landowner now available!**

This program provides assistance to farmers and landowners interested in improving soil and water quality-while increasing their bottom line.

- **New fencing options with stream setbacks from 10' up to 50'**
- **Installation of rotational grazing systems**
- **Options for winter feeding to prevent damaging pastures**
- **Maintenance funds for existing stream exclusion fences & alternative watering systems**

**More program flexibility to meet the  
needs of your operation**

## **Benefits:**

- \*Increase Pasture Productivity & Grazing Efficiency
- \*Prolong the grazing season & feed less hay
- \*Increase Animal Control
- \* Provide a Clean Source of Drinking Water with a Alternative System
- \*Fewer Foot Injuries & Calving Location Problems
